

## Moen Kitchen Sinks

### MoenStone®

Overall Size 33x22  
28350W,25350W

Moenstone Kitchen Sinks are made from high-strength quartz or granite composite materials and feature large, deep bowls. MoenStone carries the color completely through the material for fadeproof brilliance. Sinks resist cutting, scratching, and staining. This engineered composite material resists thermal transfer which allows dish water to stay warm longer.
